Product Recall

Whether manufacturing raw ingredients or serving food in a restaurant, the food and beverage industry faces many challenges when it comes to getting a product from 'farm to fork'. One of the most critical of these challenges is a contamination within the supply chain leading to the threat of injury to a customer and the subsequent cost of recalling the finished product.

Tokio Marine Kiln has established itself as a market of first choice for product recall insurance. With access to red24, one of the best crisis managers and corporate communications experts in the business, we can help to mitigate costs to both the insured and insurer.

What we cover

Our first party policies get insureds back on their feet and trading again as quickly as possible, by managing the crisis, paying for the costs of the recall and the subsequent loss of revenue. Optional third party coverage, including customer loss of profits, can be included when required.

Coverage can also be expanded to include enhancements such as:

- Adverse media
- Government recall

Why choose Tokio Marine Kiln?

- We serve a wide range of customers in industries including food and beverage for human consumption, wholefoods, nutraceuticals, pharmaceuticals and domestic pet food
- We can provide capacity of up to USD20m
