Cyber Ctrl: Policy Enhancement

Cyber Ctrl insurance provides cover for events such as computer attacks, mistakes made by employees, network failures and data breaches. When things like this happen they can completely paralyse an organisation. TMK's 24-hour hotline helps you respond to an incident and minimise damage to your business.

Who is it for?

Tokio Marine Kiln's Cyber Ctrl insurance is designed to enhance existing policies that clients hold (such as property or liability insurance) to give them protection against a wide range of cyber-related risks. The product is aimed at small to medium sized businesses.

How do I get it?

Our cyber insurance can easily be added onto existing policies written under the Binding Authority Agreement. All you need to do is provide the following information to your Lloyd's broker:

1. Sample Bordereaux
2. Revenue range of Insureds
3. The Insureds' industry categories

We will work with your Lloyd's broker to extend the permissions under the binder and this can be finalised in a matter of weeks.

Overview of the cover provided

Cover	Overview of what's included	Particularly suited to
Business interruption	Loss of gross earnings and extra expense, caused by either a mistake in the use of or a security breach of the Insured's computer system.	Companies whose business income depends on an available IT infrastructure, e.g. online retail, manufacturers, utilities, financial institutions or trading systems.
Digital asset destruction	Costs to restore or recreate data caused by either a mistake in the use of or a breach of the Insured's computer system.	
Incident response expenses	Costs to manage a data breach including IT forensic costs, public relations and legal expenses as well as the cost of notifying customers of the situation and providing credit or monitoring to them.	Any company that maintains personal information (customer or employee) including financial services firms, healthcare, retailers and other B2C companies.
Regulatory defence and penalties	Fines and penalties resulting from a regulatory action following a security breach of the computer system or a breach of privacy.	
Payment Card Industry Fines & Expenses	Fines and expenses that relate to credit card breaches from non-compliance with payment card industry data security standards.	Any company that accepts credit cards as a form of payment.
Security and privacy liability	Damages and defence expenses from a legal suit which the Insured is legally obligated to pay as a result of a security breach or privacy breach.	Any company storing personal and/or confidential information.
Multimedia liability	Liability and defence costs incurred as a result of infringement of offline/online media.	Companies who publish and advertise online and offline media content as part of business operations.

Access to dedicated **24-hour emergency hotline for all policyholders** following discovery of a cyber incident.
