Cyber Ctrl: Policy services

Extra services for peace of mind

Cyber Ctrl provides a comprehensive and flexible policy that will reimburse damages and financial losses arising from accidental or malicious incidents affecting your computer networks, software and data.

To help our clients minimise the risk of a cyber loss, Tokio Marine Kiln has partnered with a range of service providers.

Services available

XCyber®

XCyber® is a cyber intelligence company with over 200+ years of accumulated cyber experience gained from working with the British Government. Its team has advised numerous law enforcement and intelligence security services globally. Leveraging this experience enables them to provide expertly tailored cyber and intelligence services and solutions across many business sectors.

TMK clients will automatically receive the following when they purchase Cyber Ctrl:

- An intelligence-based overview report of the Insured's existing cyber exposures
- A critical alert notice service tailored to the Insured's individual cyber risk exposure
- Two consulting hours per year to build further context around reported events and to enable the Insured to act on the intelligence presented.

Norton Rose

Norton Rose's six tiers of cyber risk management services will help our clients manage and mitigate data protection, privacy and cybersecurity risks long before an incident ever occurs.

- Consultation with Norton Rose Fulbright
- Data security and privacy webinars
- Onsite table top exercise
- Vendor/service provider contract review
- Incident response plan review
- Board and executive training sessions.

Sytorus

Sytorus, data protection specialists, can offer clients access to their Privacy Engine support package which can give Data Protection Officers all the help they need to complete the core tasks that will make their organisation compliant with the new EU General Data Protection Regulations (GDPR).

- Ways to maintain mandatory logs
- Automated Privacy Impact Assessments
- Identify risks and assign tasks to stakeholders
- Maintain all relevant policies and procedures
- Train staff and measure their awareness
- Interact live with a Data Protection expert.
